## Allianz Partners India Receives Patent Grant for Portable Mobile Charger to support Electric Cars

Gurugram, India, January 16, 2025

**Allianz Partners India**, a leading Assistance and Services Company is proud to announce that it has been granted a patent by The Patent Office, Government of India, for its cutting-edge **Portable Mobile Charger (PMC)**, titled “**System and Method of Servicing and Recharging Stranded Electric Vehicles Through E-Mobility Assistance Vehicles**”. The patent is valid for a term of 20 years, starting from February 2020 (*date of application filing*), as per the provisions of the Patents Act, 1970.

The Portable Mobile Charger is a breakthrough solution tailored to the needs of EV customers, offering on-road charging for electric vehicles that run out of charge. Developed by Allianz Partners India, this technology is designed to meet the increasing demand for reliable and convenient charging solutions for EV users.

The PMC features a 20 kW DC fast charging system powered by lithium-ion battery packs. It supports both CCS and CHAdeMO charging protocols, incorporates advanced safety features for high-voltage operations, and includes a hydraulic speclift with roadside repair capabilities for added convenience. The PMC is currently operational in 5 major cities including New Delhi, Mumbai, Pune, Bangalore and Hyderabad.

Speaking on this significant achievement, **Charu Kaushal, Managing Director of Allianz Partners India**, said, “*We are excited to announce that we have been granted a patent for our Portable Mobile Charger—an innovative solution designed to provide ‘on-the-spot charging’ and deliver complete peace of mind to our EV customers and clients. This innovation addresses the challenges of range anxiety and reflects our commitment to advancing electrification and a sustainable future.*”

Allianz Partners India was also granted a patent for its Two-Wheeler Mobile Charger (TMC), titled “*System and Method of Recharging Stranded Two-Wheeled Electric Vehicles Through Two-Wheeler Mobile Charger.*” This innovative product has been well-received and has set a new benchmark for roadside assistance services in the EV sector.
